EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Response to Arguments

1. Applicant's arguments in view of the amendment filed 18 October 2006, with respect to claims 1-2 & 4 have been fully considered and are persuasive. The §112 rejection of claims 1-2 & 4 has been withdrawn.

Allowable Subject Matter

2. Claims 1-2 & 4 are allowed.

3. The following is a statement of reasons for allowance: The closest prior art of record fails to teach each and every limitation of the instant invention. Specifically, each of BAEK, LIM *et al.*, LEE & TAKEDA *et al.* discloses a washing machine with spherical ball displacement for detecting vibration/imbalance. However, the references fail to teach or reasonably suggest the claimed washing machine sensor comprising electrodes installed so as to be submerged in the outer tub water having a configuration to create an electrical short via a spherical conductor which is displaced during a state of imbalance in the washing machine, which is disclosed as an essential element of claimed invention, as described in claim 1. For at least the foregoing reasons, claims 1-2 & 4 are believed to recite patentable subject matter.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
